WHATS THE PROBLEM WITH THIS CONTENT?

CURRENTLY

- No version control
- Content and presentation together
- Not so collaborative
- Unclear Ownership
- Not updated so frequently
- Hard to find.

WOULDN´T IT BE GREAT IF CONTENT COULD BE HANDLED MORE LIKE CODE?

REVEAL.MD

AGENDA

- Why use reveal-md?
- Markdown
- Reveal
- Installation
- Exercises
- Q&A

ELEVATOR PITCH

revel-md is a framework that presents slides.

Unlike Powerpoint or Keynote,

reveal-md lets you write in markdown and focus on content!

MARKDOWN

TEMPLATE

```
# Title
<!-- slide -->
## Agenda
- Point 1
- Point 2
<!-- slide -->
### Point 1
<!-- vertical -->
#### Vertical Slide
<!-- slide -->
### Point 2
<!-- slide -->
## Thanks!
```

COMMENTS ON STRUCTURE

Keeping the header levels helps in creating a PDF document

```
<!-- slide --> insted of ---
<!-- vertical --> insted of ----
```

Using these separators add only comments in the markdown

```
Note followed by : before speker notes
```
